

THE GOURMETS' FISH

Sandwich- und Longslice Salmon: Perfectly cut to size for system catering

Dimension of the
slices as desired:
precise calibrating,
portioning,
calculating

Tailor made for your preparation

Slices from the smoked salmon fillet of **exactly the same size** make preparing easy and allow safe portioning.

Our sandwich salmon is tailor made for sandwiches: Every slice has exactly the size of bread for toasting = 9,5 x 9,5 cm and weighs optionally 25 g (+/- 2 g) or 30 g (+/- 2 g), for fast, clean portioning, without ripping the slice.

Even the longslice version offers all slices in exactly the same shape and size: e. g. 29 x 10 cm or 8 x 12 cm. Perfect for sushi, fresh cheese rolls, canapés etc. ...

A good cut slice for slice:

- Cost savings due to fast processing
- Calculation security
- Simply removal of the salmon slices
- Without skin or dark meat

Always a good choice: The size of the slices can be calibrated according to your requirements. Talk to us about what you need, we will certainly find a suitable solution!
